

XAD

AC to DC, constant current, 1 channel LED drivers

Xicato designs and develops light sources and electronics that enable architects, designers and building managers to create beautiful, smart spaces in which people love to live and work. With thousands of installations around the globe, Xicato continues to be a leading supplier of high quality lighting solutions. Xicato is defining the future of intelligent light sources by integrating electronics, software and connectivity. Founded in 2007, Xicato's headquarters is based in Silicon Valley and the company has offices in China, Europe and the US.

XAD

The XAD line of highly efficient AC drivers from Xicato are designed for smart lighting control with all the features expected in an industry benchmark product. They offer best-in-class dimming, reliability and durability in standard form factors that work seamlessly with different LED luminaire designs and lighting applications.

- Constant Current (CC) and Constant Voltage (CV) are offered in the same form factors
- Range of power and programmable drive currents for CC
- Excellent flicker-free performance
- Dim to 0.1% to with smooth transition to off on both CC and CV drivers
- Dimming smoothly in 0.1% steps
- Low inrush current and THD
- High power factor and efficiency
- Support 0-10V or DALI2 controls, with Bluetooth option on every driver
- Dual channel option for tunable white with Bluetooth option
- Auxiliary output on every unit
- Terminals with tool-less strain relief

Control protocol	0-10V or DALI2, w/BLE mesh option		
Dimming range	100% to 0.1%		
Dimming curve options	Programmable by user as LOG, LINEAR		
Dimming method	0-10V or DALI, varies by part number		
Input voltage	100-277VAC		
Input frequency	50-60 Hz		
Maximum input current	0.4A @ 115Vac 0.2A @ 230/277Vac	0.8A @ 115Vac 0.4A @ 230/277Vac	1.4A @ 115Vac 0.7A @ 230/277Vac
Efficiency @ full load	≥85%		
Power factor @ full load	>90%		
Maximum inrush current AC	<10A		
THD @ full load	<20%		
Maximum standby power	≤0.5W		
Maximum output power	30W	60W	100W
Number of outputs	1		
Output Current¹	Programmable range 175-350mA 350-700mA	Programmable range 350-700mA 700-1400mA	Programmable range 700-1400mA
Output Voltage (LED Vf) Range	2.5V – 52V		
Output tolerance	±3%		
Auxiliary output voltage	12V DC		
Auxiliary output current	50mA (current limited)		
Max auxiliary output power	0.6W		

Notes:

- Output current will be automatically limited to ensure power rating is not exceeded. For example, if the LED Vf is 48V, then the maximum current for the 60W XAD will be 1200mA.
